GRANT CYCLE OVERVIEW

The Department of Resources Recycling and Recovery (CalRecycle) offers the Farm and Ranch Solid Waste Cleanup and Abatement pursuant to section 48100 et seq. of the Public Resources Code. The purpose of the grant is to clean up illegal disposal sites on farm and/or ranch property.

As defined in the California Code of Regulations, Section 17991 (d) Farm and Ranch property means a piece of property, publicly or privately owned, that is used for rangeland or agricultural activities such as, but not limited to, commercial livestock and crop production, horticulture, aquaculture, silviculture, floriculture, vermiculture and viticulture. Farm or ranch property need not have active sales or production, but shall be appropriately zoned, or otherwise authorized for agricultural activities. Farm or ranch property includes appurtenant easements or right-of-ways such as, but not limited to, public roads and utilities.

PILOT PROGRAM

On June 20, 2017, CalRecycle approved the extension of the pilot project (Pilot) for the third cycle of Fiscal Years (FYs) 2017–18 and 2018–19. The purpose of the Pilot is to encourage more applicants to apply by relaxing the due dates for several required application forms. All of the same application documents are required for participation in the Pilot; however, the timeframe of when they are due is different from a standard application. The Pilot will allow an applicant to apply for funds for existing illegal disposal sites with only a resolution and an estimate of expenses submitted by the application due date. After grant award, but prior to cleanup, the grantee will upload the remaining completed application forms into CalRecycle's Grants Management System database to make the application complete. The Pilot is only offered in the third cycle for the application due date of February 6, 2018.

Third cycle applicants may choose either to apply under the standard program or the Pilot. Applicants who apply under the standard program for cleanup of eligible sites will have priority over those applicants applying for the Pilot.

This resource document provides applicants with instructions to access and complete the application online and information about grant administration. The web-based application is in the [Grant Management System \(GMS\)](http://www.calrecycle.ca.gov/Funding/GMS/) (<http://www.calrecycle.ca.gov/Funding/GMS/>). You will need to sign in to GMS to complete and submit an application.

TIMELINE

Date	Activity
August 24, 2017 November 7, 2017 February 6, 2018	Application Due Date <ul style="list-style-type: none"> • Applications must be submitted in GMS by 11:59 p.m. on this date • Customer service will be available until 4:00 p.m. on this date
September 26, 2017 December 19, 2017 March 6, 2018	Secondary Due Date <ul style="list-style-type: none"> • Approved Resolution must be uploaded in GMS by this date if it was not submitted with the application
October 2017 January 2018 April 2018	Grants Awarded CalRecycle considers funding recommendations, and if approved, conditionally awards grants during this month (tentative)
March 19, 2020	Grant Term Notice to Proceed to this date

ELIGIBLE APPLICANTS

California Labor Code section 1782 prohibits a charter city from receiving state funding or financial assistance for construction projects if that charter city does not comply with Labor Code sections 1770-1782. If any applicants or participating jurisdictions are charter cities or joint powers authorities that include charter cities, the lead participating jurisdiction must certify on the Detail tab of the application that Labor Code section 1782 does not prohibit any included charter city from receiving state funds for the project described in this application. If it is determined after award that an applicant or participating jurisdiction is a charter city prohibited from receiving state funds for this grant project, the grant will be terminated and any disbursed grant funds shall be returned to CalRecycle.

Eligible applicants include cities, counties, resource conservation districts and Federally Recognized Native American tribes as defined in PRC Section 48100(d)(1). For purposes of this application, “Applicant” and “Local Agency” mean cities, counties, resource conservation districts and Native American tribes.

Private property owners are not eligible to apply directly; they must make a request for application submission to the city, county, resource conservation district or Native American tribe in which their property is located. Such requests will be reviewed and considered by their respective Local Agency as set forth below in the “**Local Agency Review of Property Owner’s Request**” section, and if approved, the Local Agency shall apply for the Grant on behalf of the property owner.

Applicants are responsible for the preparation of the grant application, management of the cleanup project and completion and submittal of all grant related documents. An application may be initiated by a Local Agency, or requested by the property owner. If the request is from a property owner in accordance with section “**Property Owner Request for Cleanup**” below, the Applicant must comply with section “**Local Agency’s Review of Property Owners Request.**”

ELIGIBLE PROJECTS/PRODUCTS

A site may be eligible for funding if **all** of the following criteria are met:

- The parcel where the site is located is zoned, or otherwise authorized, for agricultural use;
- Unauthorized disposal of solid waste and/or waste tires has occurred on the site;
- The site is in need of cleanup in order to abate a nuisance or public health and safety threat and/or a threat to the environment;
- Neither the applicant, nor the property owner, nor any resident, invitee, licensee, lessee, or person the current property owner purchased or inherited from, by contract, agreement, or other arrangement, brought any of the subject solid waste onto the property;
- The aforementioned parties did not direct, authorize, permit or otherwise provide consent to another to bring the solid waste onto the property;
- The site is used, has been used, or could be used for rangeland or agricultural activities, including, but not limited to, commercial livestock, crop production, horticulture, aquaculture, silviculture, floriculture, vermiculture and viticulture, see above **Grant Cycle Overview** for additional information;
- The site is, or was (for sites previously remediated), an illegal disposal site (i.e., not permitted and not exempt from obtaining a solid waste facility permit and is not a closed site);
- The responsible party either cannot be identified, located, or pay for timely and proper remediation; and,
- The current use, or intended future use, of the site is consistent with the definition of Farm and Ranch Property as defined in Title 14 CCR Section 17991(d) cited above.

The property owner must sign and notarize the **Property Access Authorization and Non-Responsibility Affidavit (Affidavit)** found in the Resource Documents Section of the Summary tab in GMS. If the property owner is an entity, an authorized representative must sign the Affidavit.

The applicant must demonstrate that each site will be fully remediated with grant funds, or a combination of grant funds and in-kind funds/services. Grant funds are not available for the partial cleanup of an illegal disposal site.

Once a grant is awarded, the grantee will have approximately two years to complete the project. The precise term of the grant depends on when the grant is awarded.

Project Types

Within the Farm and Ranch Grant Program, there are two project types; a request of grant funds to clean up a site previously remediated (called a reimbursement grant or prior cleanup site) and a request of grant funds for a site yet to be cleaned up. The application requirements are basically the same and the Grantee must wait to incur new costs until a Notice to Proceed is received, regardless of project type.

Pilot Program

Grantees who are awarded under the third cycle Pilot Program may not incur cleanup costs until all application documents are uploaded into GMS, approved by the Grant Manager, and a Notice to Proceed *and* Site Approval Form are received.

Property Owner Request for Cleanup

A farm or ranch property owner may request that a grant application be prepared on his/her behalf by a Local Agency. The request shall include the following:

- 1) A letter requesting that the Applicant apply for a grant on his/her behalf. The letter shall include the name, mailing address and telephone number of the property owner and the approximate type and quantity of waste disposed on the property;
- 2) A vicinity map showing the location of each site and access points to the parcel of each site being requested for cleanup under the grant;
- 3) A signed and notarized **Property Access Authorization and Non-Responsibility Affidavit** from the property owner; and
- 4) Photographs of the site documenting the presence of the illegally disposed waste.

Local Agency's Review of Property Owners Request

The Local Agency has 45 days from receipt of the property owner's request to review the request, conduct a site visit and provide a written determination that the owner's property is, or is not eligible for submission of a Farm and Ranch grant application.

Once the Local Agency determines that the property owner's request is accurate and complete, the Local Agency shall submit a grant application to CalRecycle within 60 days from the date of determination.

If the Local Agency determines that the site is *not* eligible for a grant, it shall provide the property owner with the reasons for disapproval within 45 days of the receipt of the request. The property owner may appeal this determination pursuant to Title 14 CCR Section 17994.3.

Reimbursement of Prior Cleanups

Reimbursement of eligible costs previously incurred by a current farm or ranch property owner for the cleanup or abatement of an illegal disposal site which he/she continues to own may be allowed if verification and documentation of those costs are provided, the site is an eligible site as described in **Eligible Projects** above, and the costs incurred were specifically for grant eligible cleanup or abatement work.

In addition to the information requested in the **Property Owner Request for Cleanup** section above, the property owner shall provide to the Local Agency the following:

- 1) A description of the tasks undertaken to remediate the site.
- 2) The types and quantities of wastes recycled and disposed.
- 3) The total amount of material removed.
- 4) "Before" photographs of the illegally disposed waste and "after" photographs proving the waste has been removed.
- 5) The costs and receipts associated with each task in remediating the site, including, but not limited to:
 - a. Disposal (including disposal receipts from the landfill or transfer station and a manifest for used and waste tires proving the tires were properly disposed or recycled);
 - b. Recycling;
 - c. Equipment; and,

- d. Labor (the time spent by a property owner cleaning up their own property is ineligible for reimbursement).

6) Description of the success of the project.

AVAILABLE FUNDS

- \$930,000 is available for this grant cycle, fiscal year 2017–18, subject to funding availability.
- The grants are awarded based on eligibility and threat to public health and safety. Grants are limited to \$50,000 per single cleanup or abatement project or parcel with a limit of \$200,000 per fiscal year for each eligible Applicant. No matching funds are required.
- For single sites requiring in excess of the \$50,000 per site limit for cleanup costs, an Applicant may still apply for the full \$50,000 provided there is a commitment from the Applicant or property owner to provide in-kind services and/or funds to meet the cleanup costs beyond the available funding limit.
- An incorporated city, a resource conservation district and the county within which they are located are each eligible for up to \$200,000 of grant funds each fiscal year. Two or more departments or agencies within a specific city or county are eligible for a combined total of \$200,000 per fiscal year.
- CalRecycle reserves the right to award all, a portion of, or none of the Farm and Ranch Grant fund during any fiscal year.

GRANT TERM

The Grant Term begins on the date of the Notice to Proceed. Grant-eligible program expenditures may start no earlier than the date indicated in the Notice to Proceed. Costs incurred prior to the date on the Notice to Proceed may be eligible for reimbursement of previously remediated sites only.

The Grant Term ends on March 19, 2020 and all eligible program costs must be incurred by this date.

The Final Report and final Payment Request are due on March 19, 2020. CalRecycle recommends reserving the period from February 16, 2020 to March 16, 2020 exclusively for the preparation of the Final Report and final Payment Request, though they may be completed earlier. **Costs incurred to prepare the Final Report and final Payment Request are only eligible for reimbursement during the Grant Term.**

ELIGIBLE COSTS

All grant expenditures must be for activities, products, and costs specifically included in the approved Work Plan and approved Budget. Eligible costs include, but are not limited to, the following:

- Removal and disposal of solid waste and tires and related actions.
- Removal and disposal of solid waste and tires from marijuana grow sites.
- Recycling, including used oil, automotive batteries and tires.
- Drainage control and grading improvement.
- Slope and foundation stabilization.
- Excavation.
- Revegetation to stabilize an area disrupted by remediation. The cost must be incidental to the cost of the cleanup.

- Site security, including gates, fencing and other types of protective/restrictive barriers, up to 15 percent (15%) of the grant funds expended. The CalRecycle Grant Manager may approve an amount in excess of this when appropriate justification is provided.
- Public education to help prevent reoccurrence of the dumping, if included with any of the above eligible remedial actions. The cost must be incidental to the cost of the cleanup.
- Equipment rental and fuel.
- Removal of Chlorofluorocarbons (CFC's) from appliances.
- Mileage of up to 53.5 cents per mile (or the current rate in the State Administrative Manual), for cleanup related activities.
- Personnel costs for grant management and the preparation of reports and payment requests.

INELIGIBLE COSTS

Ineligible costs include, but are not limited to:

- For new cleanup sites, costs incurred prior to the date on the Notice to Proceed email, or after March 19, 2020.
- For sites previously remediated, costs incurred after March 19, 2020.
- For Pilot grantees, cleanup costs incurred prior to site/document approval;
- Any costs incurred for conditions for which the property owner(s), any resident, invitee, licensee, lessee, or person the property owner(s) purchased from or inherited from was responsible.
- Administrative/Indirect costs in excess of seven percent of the approved total cleanup costs expended.
- Costs currently covered by another CalRecycle funded loan, grant or contract.
- Goods and services paid for with grant funds that are received after March 19, 2020.
- Wages paid to a landowner for time spent cleaning up his/her own property.
- Any expense not deemed reasonable by the Grant Manager and/or not directly related to the implementation of the cleanup.
- Transportation costs of used/waste tires hauled by an unregistered tire hauler.
- Clothing or footwear.
- Closure activities, as defined in Section 20164 of Title 27, Division 2 of the California Code of Regulations.
- Ground water remediation.
- Surface water or vadose zone monitoring systems.
- Removal, abatement cleanup or otherwise handling of hazardous substances [as defined in 42 U.S.C. Section 9601 (14)].
- Extinguishing of underground fires.
- Operation and maintenance of any part of a leachate system.
- Purchase or leasing of land.
- Profit or mark-up by the Grantee.
- Cell phones, pagers, personal electronic assistance devices, and similar electronic and telecommunications devices, etc.
- Overtime costs (except for extreme situations that have been pre-approved in writing by the Grant Manager).
- Any personnel costs not directly related to salaries and/or benefits.

- Any personnel costs incurred as a result of any employee assigned to the grant cleanup project for time not actually worked on the project (e.g., use of accrued sick leave, vacation).

Waste Tire Hauler

State law requires every person who transports 10 or more used/waste tires to hold a valid [waste tire hauler registration](#). The law also requires compliance with the provisions of the [used and waste tire manifest program](#), which is managed by CalRecycle. To locate a registered waste tire hauler in your area see <http://www.calrecycle.ca.gov/Tires/Data/Organization/Search.aspx>

PUBLIC RECORDS REQUESTS

It is the policy of CalRecycle to make records requested by the public promptly available in accordance with the [laws](#) governing disclosure of records and information to the public. In general, all records in the possession of a state agency are public records subject to disclosure, unless a law provides that a particular kind of record or information is not a public record or is exempt or prohibited from disclosure. Upon request, the entire contents of your submitted application are subject to public records requests. This may include contact information, project summary, uploaded documents, and scoring information.

APPLICATION INSTRUCTIONS

APPLICATION ACCESS

The application is available in CalRecycle's web-based Grants Management System (GMS). Access to GMS is secure; therefore you must have a CalRecycle WebPass in order to log into the system. Applicants who have not previously obtained a CalRecycle WebPass can create an account at the [CalRecycle WebPass site](https://secure.calrecycle.ca.gov/WebPass/) (<https://secure.calrecycle.ca.gov/WebPass/>).

When you are ready to start an application, log into [GMS](https://secure.calrecycle.ca.gov/Grants) (<https://secure.calrecycle.ca.gov/Grants>), select "Apply for a Grant" on the left. Open grant cycles are displayed in a table. Find *Farm and Ranch Solid Waste Cleanup and Abatement Grant Program: Fiscal Year 2017-18* and select "Start Application." A pop-up window will appear asking for contact information. You will automatically be added as the first contact and Primary Contact for the new grant application however, this can be updated later. The application then opens to the Summary Tab.

APPLICATION CONTENTS AND INSTRUCTIONS

The components of the application are divided into tabs. To fill out an application, click on each tab and complete the sections in each tab as required. General directions are on the top of each tab and detailed information about the requirements for each tab is listed below.

The applicant is responsible for a complete application. This includes signing documents, uploading required documents, and submitting the application by the due date(s). Failure to do so will result in disqualification from the Farm and Ranch grant program. Examples of disqualifications may include:

- Applicant does not meet the eligibility requirements
- Project is not eligible
- Failure to use required CalRecycle documents or forms
- Uploading incomplete or blank documents to the Documents tab
- Signature Authority fails to sign Application Certification or any document that requires a signature
- The online application is incomplete or missing information

Pilot Applicants

To ensure all components of application are submitted on time, Pilot applicants must:

- Complete the amounts in the Budget tab by February 6 2018.
- Upload a completed Application Certification by February 6, 2018.
- Provide project detail in the Project Summary on the Detail tab – see next page.
- Upload a resolution by March 6, 2018.

The remainder of the application documents must be completed and uploaded before any cleanup costs can be incurred **and** before October 1, 2019.

Summary Tab

This tab provides a summary of the application, due dates, resource documents and links, application documents, and the Application Submission section. It is the applicant's responsibility to ensure that all required documents, based on the individual grant application/project, are submitted by the appropriate due date.

Applicant/Participant Tab

The applicant name is the legal name of the jurisdiction/organization that is legally responsible for grant administration, if awarded. Do not enter your personal name.

- Select the Add Applicant/Participant button and type in the Applicant Name and County.
- Search the table for the correct applicant name and select Add Applicant/Participant.
- Choose the Lead Participant radio button. Every application must have a Lead Participant even if it is an individual application with no participating jurisdictions.
- If it is not listed, click on Add New Applicant/Participant. Complete the items marked with a red asterisk and save the information.
- Enter the applicant/participant name as it appears on the Resolution or Letter of Commitment. Do not include the department or unit name.
- County names must be listed with the name first followed by the word "County," e.g., "Sacramento County."
- City names must be listed as "City of" followed by the city's name, e.g., "City of Sacramento."

For a list of eligible applicants, please see the Grant Cycle Overview section titled "Eligible Applicants."

Detail Tab

Complete this tab as follows:

- Enter a dollar amount in the Grant Funds Requested field. Do not exceed the maximum grant award amount of \$200,000 (Note the \$50,000 limit per single cleanup or abatement project or parcel). Please round all amounts to the nearest whole dollar.
- Enter the Assembly Districts and Senate Districts. To select more than one district hold the "Ctrl" key while selecting the numbers.
- Enter the applicant's department name, e.g. "General Services." If the applicant does not have a department the applicant's name may be entered.
- Enter the grant payment mailing address.
- Project Summary/Statement of Use: provide a description of the proposed cleanup project, **including**:
 - Whether the application is for the Pilot Program.
 - Statement that the responsible party cannot be identified, located or pay for timely and proper remediation.
 - Tribal Applicants - a statement that the tribe applying for funds is a federally recognized tribe.
 - Number of illegal disposal sites included in the application.
 - If the jurisdiction has a continued problem with illegal dumping.
 - A description of the illegal dumping prevention programs in the jurisdiction (such as waste tire amnesty days, household hazardous waste cleanup

events, free landfill disposal) and whether the afflicted landowner(s) has/have utilized these programs/opportunities.

- Specific site information should be detailed under the Address/Site tab.
- Select the appropriate option for the Resolution or Letter of Commitment Requirement and optional Letter of Designation.
- Select the appropriate answers for Program Questions.

Contacts Tab

The application is required to have only one Primary Contact and at least one Signature Authority. Each contact entered into the application may be granted access by checking the box on the top of the contact's detail screen. The contact will be able to log into GMS using his/her own CalRecycle WebPass and access the application.

- **Primary Contact.** One person who has been authorized by the Signature Authority/Designee to manage and oversee the grant. This person will be the first contact with whom the Grant Manager will communicate.
- **Signature Authority.** The person(s) authorized to sign CalRecycle documents, such as grant applications, grant agreements, etc., as authorized by a board/council-adopted Resolution, Letter of Designation, or Letter of Commitment (if applicable).
- **Secondary Contact.** A person authorized (by the Primary Contact or Signature Authority/Designee) as the alternate person with whom the Grant Manager will communicate. (Not required)
- **Consultant.** A professional who provides advice in a particular area of expertise. If the applicant is awarded a grant, the consultants may manage the grant or only conduct specific activities, based on a written agreement between the applicant and the consultant outlining work to be performed. (Not required)

Budget Tab

- First complete a budget document for each site. The budget document can be found in the Summary tab.
- If applying for the cleanup of more than one site, create an additional budget document, called the Total Budget, that is the sum total of all sites.
- Transfer the amounts from the Total Budget into the Budget tab.
- Verify that the total in the Budget tab equals the *Grant Funds Requested* amount shown on the Detail tab.

Site(s) Tab

Add an entry for each grant project/site.

- A "site" is defined as a single cleanup project, or a parcel of land when there are multiple piles on one parcel.
- A Grant Application may consist of one site, or multiple sites.
- Add an entry for each grant project/site.
- **Name** Provide a name for the site. It is customary to use the property owners name or the street name, such as Smith Illegal Disposal Site or Lambert Road Illegal Disposal Site.
- **Address/Site Type** Choose the type that best fits the property usage.
- **Address line 1** List the physical street address for the site.
- **Address line 2** List the Assessor's Parcel Number (APN) for the site.

- **Budget Amount** The amount of grant funds requested to clean up the site. An applicant may request up to \$50,000 in grant funds per site and up to \$200,000 for four or more sites. An applicant is limited to \$200,000 per fiscal year.
- **Summary** Describe the site and include the following:
 - Parcel size in acres.
 - Current use-what is the land being used for, is it active, or inactive farm land, forestland, etc.
 - Explain if the property is publically or privately owned.
 - Is the illegal disposal site accessible from a public road? By vehicle or on foot?
 - What measures will be put in place after cleanup to help prevent the property from being dumped on again? This may include: increased surveillance, fencing, gates, or physical barriers such as a ditch, boulders or k-rail.

Documents Tab

The following documents must be uploaded into the **Documents tab** and are required for a complete Application, whether applying for a Pilot, or Non-Pilot type grant: (See specific grant types below for due date variation)

- Application Certification*
- Resolution (due by secondary due date)

The following are required for each site:

- Budget (plus a Total Budget if multiple sites)
- Work Plan
- Land Use/Zoning Designation
- Site Characterization Form
- Property Access Authorization and Non Responsibility Affidavit
- Photographs
- Vicinity Map

When uploading a document, enter a unique document title using the site name (for example “Davis Site Map”, “Davis Affidavit” “Davis Total Budget,”), select the appropriate document type from the drop down list, and enter the date that it was executed/signed, if applicable, or select “today’s date.” See the **Application Documents** section for detail about the documents that must be uploaded in the **Documents tab**.

After all the application documents are uploaded, return to the **Summary Tab** and print the **Application Certification** from the **Application Submission** section.

Third Cycle of the Fiscal Year - Application for February 6, 2018 due date.

Non-Pilot Applicants All documents above are due by the Application due date, with the exception of the resolution.

Modifications have been made to the Application in GMS to accommodate the Pilot. As a result, the documents above will not be included in the list of “required documents by the Application due date”. However, they **are** all required to be submitted by the Application due date for the Application to be considered complete (except the Resolution).

Pilot Applicants: (Pilot offered for February 6, 2018 deadline only)

To be considered complete, an Application for the Pilot must have the following documents uploaded and/or completed in GMS by the Application due date:

- Amounts in the Budget Tab of GMS completed
- Signed Application Certification

The Board Adopted Resolution must be uploaded by the secondary due date.

All remaining Application documents must be uploaded to the **Documents tab** no later than **October 1, 2019**.

APPLICATION SUBMITTAL and DEADLINE

The **Submit Application** button will be enabled after all required documents have been uploaded. Click the **Submit Application** button and the application status will change to **Submitted**. The application can only be submitted once, however you will be able to upload documents until the secondary due date.

Applications must be submitted no later than 11:59 p.m. on August 24, 2017, November 7, 2017 or February 6, 2018. Customer service will be available until 4:00 p.m. on the application due dates either by emailing grantassistance@calrecycle.ca.gov or calling (916) 324-8867.

Note: Applications that are not submitted by the due date will be automatically deleted from GMS.

APPLICATION DOCUMENTS

Electronic and Original Signatures

CalRecycle documents or forms that certify legally binding information require an original wet ink signature. If a signature block with penalty of perjury language is provided please provide a wet ink signature. CalRecycle will accept electronic signatures on all other documents. If you have questions, email grantassistance@calrecycle.ca.gov.

CALRECYCLE DOCUMENTS

CalRecycle documents are on the Summary tab in the Application Documents section. To access a document, click on the link, open it up, fill it out, save it to your computer, and upload it to the Documents tab. Below is a list of the documents. Unless a document specifies that it may be reproduced as necessary, **do not** alter CalRecycle documents. If you are having trouble with a document, email grantassistance@calrecycle.ca.gov or call (916) 324-8867. Altered CalRecycle documents or templates may result in automatic disqualification of your application.

Application Certification

The Application Certification is a required application document that must be generate from GMS. After each tab of the application is complete and documents are uploaded, generate the Application Certification from the Summary tab. A wet ink signature from the authorized Signature Authority (identified in your resolution or letter of commitment) is required, then scan the document, upload it, and retain the original hard copy document.

BUDGET

A budget must be prepared and uploaded to the Documents tab for each site. If there are multiple sites a Total Budget must be prepared and uploaded as well. Use the same Budget form for the Total Budget as for an individual site. The grand total of all site budgets must equal the amounts in the Budget tab.

Provide the total dollar amount by budget category (see Budget Categories below) with subtotal for each. A site is limited to \$50,000 in grant funds.

Demonstrate that the project is cost effective in relation to the location, type and quantity of wastes and that it maximizes the use of available funds through cost savings, such as volunteer labor, in-kind services and recycling options. If the expenditure is in-kind, it can be indicated on the budget, but should not be included in the total amount requested.

Include quotes and estimates for all work identified in the Work Plan. Without this documentation, the expense may be considered unreasonable and disallowed in whole or in part from the proposed budget.

It is acceptable to include a contingency, by budget category, to cover an unexpected increase in expenses. Do not include cents and remember to round down to the nearest whole dollar.

Budget Categories

Your budget must be arranged using the following categories:

It is not necessary to use all of the budget categories, only the categories applicable to your project.

a. Disposal and Recycling

Provide the cost of disposal and recycling of all materials removed from the site.

b. Equipment

Provide the cost of funds necessary for all equipment to be used/rented to complete the project.

c. Materials

Include the cost of all materials, including, but not limited to, gates, fencing, fuel (including miles to be driven), vegetative cover and public education information such as brochures or flyers. The total amount of grant funds to be spent on fencing and gates must be at, or below, 15 percent of the cleanup costs. A higher amount may be allowed if fully justified.

d. Personnel

Provide a total of salaries and benefits for personnel whose activities are directly related to the cleanup project proposed in the application; including, but not limited to, actual work performed at the cleanup site and time spent processing grant Payment Requests and preparing reports required for the grant. If there are indirect costs within a salary, make sure they are not charged again under administrative costs.

e. Administrative Costs

Includes, but are not limited to, indirect costs that cannot be readily allocated to a specific grant project, but are necessary to the grantees performance of the grant and the general business operation. Examples include, but are not limited to, a portion of the rent, utilities and/or telephone bill for the duration of the cleanup.

Seven percent (7%) of the total approved cleanup costs expended may be spent on administrative costs. **Note: If, at the end of the grant term, the total cost of the cleanup is less than the amount in the approved budget, the administrative costs will be reduced to reflect seven percent (7%) of the amount expended.** All administrative costs must be explained/justified and verifiable with supporting documentation. To calculate the maximum amount of administrative costs allowed under the grant, add up all approved expenditures from the other budget categories and multiply this total by seven percent. See below:

1. Disposal/Recycling	\$
2. Equipment	\$
3. Materials	\$
4. Personnel	\$
<hr/>	
Subtotal – Total Project Cost	\$
5. Administrative costs [Not to exceed 7% of (1) + (2) + (3) + (4)]	\$
<hr/>	
Total (Not to exceed \$50,000 per site)	\$

Budget Example
Illegal Disposal Site – Site 1

Description And Budget Category	Cost (Unit & Category)	Duration (# Of Hours/Days)	Total Cost	Staff Or Contractor
Disposal/Recycling Dispose of Municipal Solid Waste Crush & Recycle Vehicles 15% Contingency	100 tons 10 vehicles		\$3,875 \$2,500 \$1,125	Elk Valley Landfill U-Pull-It Car Crushers
SUB-TOTALS			\$7,500	
Materials Barrier Fencing Mileage to and from the site	150 feet .54/mile	\$25/foot installed 150 miles	\$3,750 \$81	B & R Ranch Supply
SUB-TOTALS			\$3,831	
Equipment Excavator and crane Water Truck		15 days 10 days		Davis Construction, Inc. A-1 Rentals
SUB-TOTALS			\$25,500	
Personnel Manually remove solid waste Project coordinator-prepare reports				California Conservation Corp San Joaquin County
SUB-TOTALS			\$8,740	
SUB-TOTAL BEFORE ADMIN			\$45,571	
Administrative Cost (max of 7% of cleanup costs expended and approved <\$3,189.97> Director- Direct oversight of grant activities Rent (portion of total cost) Utilities (portion of total cost)			\$576	San Joaquin County
		4 months	\$1,412	
		4 months	\$120	
SUB-TOTALS			\$2,108	
GRAND TOTAL			\$47,679	

Property Access Authorization and Non-Responsibility Affidavit (Affidavit)

This document grants legal access to the property for cleanup and all related purposes. This document requires the property owner, or legally authorized agent of the property owner if owner is an entity, to sign under penalty of perjury, that neither the current property owner, nor any other specifically identified individual(s) were responsible for the disposal of the solid waste proposed for cleanup. **The document must be filled out completely, including an explanation in the property owner's own words of how he/she became aware of the waste. The form must also be notarized.**

Site Characterization Instructions

Provide an assessment of each site including the degree of threat to public health and safety and/or the environment. A separate document must be completed for each site. The document should include:

- Name of Site: It is customary to use the property owner's last name, or the name of the street; Smith Illegal Disposal Site or Davis Road Illegal Disposal Site.
- Parcel Number: The Assessor's Parcel Number (APN). This number must match the APN on the Affidavit (see detail below).
- Solid Waste Information System (SWIS) Number: This is a number assigned by CalRecycle. The site may, or may not, have a SWIS Number.
- Location: In addition to the street address, describe the location of the illegal disposal site in relation to the nearest cross street(s) and include the name and compass direction of the closest town or city; for example at the end of Glenn Road, 5 miles north of Brawley or 1735 Summer Lane, south of Clover Road, Santa Cruz.
- Zoning: As described on the accompanying planning document from the county. Title will be something like Agricultural, Timberland Production, Rural-Residential, etc.
 - Owned by: List the owner's name.
 - Owners Mailing Address: List the owner's mailing address.
 - General Description of Site (History/Background): For each site thoroughly describe:
 - a) Current Land Use and Parcel Size
 - Is the parcel upon which the illegal disposal site located *active* farm or ranch property? In other words, is it currently being used for range land, livestock or crop production, aquaculture, floriculture, horticulture, silviculture, vermiculture, viticulture, other. Include the type of livestock, crop(s), and other activities on the property.
 - If the site is an inactive farm/ranch property, describe the past use of the property.
 - State the acreage of the parcel the illegal disposal site is on.
 - b) Site History – Describe how the illegally disposed waste was discovered and how the waste came to be on the site.
 - c) Topography – Describe the terrain of the property; is the land upon which the waste is located flat, mountainous, have gently sloping hills, etc.
 - d) Accessibility of site as it pertains to the proposed cleanup.

- e) Exact location of the waste on the parcel. Is the waste in a drainage ditch, edge of an alfalfa field, in a ravine, ten feet from a public road, etc.
- Enforcement Status: Explain any enforcement actions, such as a code enforcement violation or citation issued in regards to the site(s) being proposed for cleanup.
- Owner Responsibility: Describe any measures or actions taken by the property owner or Applicant to address the illegal dumping.
- Site Assessment: Estimate the types of waste present by completing the table. Provide the quantity (number, gallons, tons, etc.) for each waste type.
- Land Use: Complete the table regarding land uses near the illegal disposal site. Provide explanations for any improvements or changes in land use that are planned or if the waste is located on or near an environmentally sensitive area.

WORK PLAN

The Work Plan should be a detailed, chronological, step-by-step list of the tasks necessary to remediate the nuisance or threat posed by the illegal disposal site. A separate Work Plan must be completed for each site unless a series of small sites are close in proximity and have the same characteristics as described on the Site Characterization. The Work Plan must match the tasks identified in the Budget.

The Work Plan must include, but is not limited to:

- Date the cleanup is estimated to begin and be completed. Generally, the grant term will begin three months after the application deadline and last approximately two years.
- “Before” photographs.
- Explanation of the involvement of cooperating organizations and property owners. Include agencies/businesses to be contacted for permits, licenses, etc., such as the Regional Water Quality Control Board, Department of Toxic Substances Control, city or county planning department, etc.
- Startup steps, such as: clearing brush, creating a road, equipment mobilization, obtaining permits, researching “rights of way,” conducting California Environmental Quality Act (CEQA), the scope of work, etc.
- “After” photographs taken from the same location as the “before” photographs for reference.
- Estimated completion date for the Final Report and Payment Request.

The following must be included in the Work Plan, as applicable:

- Removal of solid waste and recyclables.
- Transportation of tires by registered waste tire hauler to destination facility.
- Grading and re-vegetation work to be performed.
- Prevention measures to be installed, such as fencing and gates.

Work Plan Example

Task Description	Contractor or Staff	Timeframe (Month/Year-Month/Year)
Pre-Work 1. Verify property lines; take photos, research applicable permits, rights of way 2. Contact Mr. Lee, CCC, and Davis Construction regarding start date	County Staff	March 1
Site Prep and Logistics 1. Install fencing and gates, set up staging area 2. Secure and deliver debris bins, excavator, materials and tools on site recycling 3. Install containment area for used oil and batteries	Contractor ABC Recycling ABC Recycling Contractor	April 15 - 30
Solid Waste Removal 1. Remove tires and other debris with excavator 2. Sort debris into appropriate bins 3. Cut tree limbs, where necessary, and treat with <i>Tree Seal</i>	Joe's Tire Hauling CCC Joe Bob's Tree Service	May 1 - 10
Solid Waste Disposal and Recycling 1. Transport tires to West Coast Tire Recyclers, collect/file tire manifests for payment request 2. Transport household hazardous waste to Inland Recycling 3. Transportation of solid waste to Elk Valley Landfill	Joe's Tire Hauling Safe Haz Transport CCC	May 11
Site Restoration 1. Re-contour gullies at both sides to natural grade, install hay bale check-dams, mulch all disturbed soil 2. Plant vegetation	Contractor County Staff	May 15 – 25
Pictures 1. Take photos of remediated site	County Staff	May 26
Report 1. Prepare Final Report and Payment Request	County Staff	June 1

APPLICANT'S DOCUMENTS

Below is a list of documents that the applicant is responsible for preparing and uploading to their application. For examples of these documents, please see the **Resolution and Letter Examples** link found on the **Summary Tab** under **Resource Links**.

Resolution

Any applicant that is subject to a governing body must upload a Resolution that authorizes specific grant-related matters. A copy of the authorizing Resolution is a required application document that must be uploaded no later than the secondary due date or the application will be deemed incomplete and will be disqualified. Resolution requirements vary for individual and regional applications. See the **Resolution and Letter Examples** link for more information. CalRecycle staff are available to answer questions about the Resolution or letter examples, or to review your draft Resolution to ensure it meets the requirements of the grant program. You may upload the Resolution to your application as a Draft Resolution or for immediate review email it to grantassistance@calrecycle.ca.gov.

Individual Application Requirements:

1. The Resolution must authorize submittal of an application for one or more specifically named CalRecycle grant(s) or for all CalRecycle grants for which the applicant is eligible.
2. The Resolution must identify the period of time, up to five years, during which the authorizations are valid. Five years is encouraged; however, periods of less than five years are acceptable. If a Resolution does not specifically identify a period of time, it will be considered valid for one year from the date of adoption.
3. The Resolution must identify the Signature Authority by listing the job title of the person(s) authorized to sign all grant-related documents necessary to implement and close-out the grant(s).

(Optional but encouraged) The Resolution should authorize the Signature Authority to delegate his/her signature authority to another person identified by job title.

Note: The Signature Authority must sign a Letter of Designation **prior** to the Designee's exercise of his/her authority.

Letter of Designation

A Letter of Designation is required only when the authorized Signature Authority title identified in the approved Resolution delegates his/her authority to another person. First, the approved Resolution must indicate the Signature Authority's ability to delegate or designate his/her authority. Second, the letter must be uploaded **prior** to the Designee's exercise of his/her authority. For example, if the Designee signs the Application Certification in place of the Signature Authority, the letter must be uploaded when the Application Certification is submitted. The letter must be on the applicant's letterhead, signed by the Signature Authority, and include the information below.

- Identify the job title of the Designee and the scope of the Designee's authority.
- Identify the period during which the Designee may exercise the authority. The Designee's authority may not extend beyond the effective date of the approved Resolution or Letter of Commitment. For example, if the Resolution is effective

until December 31, 2018, then the Letter of Designation may not be effective beyond December 31, 2018). If the letter does not identify a valid time period, it will follow the same time frame as the Resolution.

Photographs

- Photographs document the presence of waste to justify the need for grant funds.
- Include an adequate number of photos to represent the majority of the waste present.
- Photos should be taken from a recognizable location to be utilized again for the “after” photos. Photographs should be put into a Word document labeled with site name and the date photograph was taken. You can include multiple photographs on each page.
- Upload each site’s photos separately and include the site name in the document title.
- Include both “before” and “after” photos if applying for a previously remediated site.

Vicinity Maps

- Provide a map that will allow a person unfamiliar with the area to find the site(s).
- Provide an additional map showing public roads and the location of structures, agricultural crops and surface bodies of water in relation to the location of the waste on the property. This map can be hand drawn.

Land Use/Zoning Designation

The land uses allowed on a parcel must be identified to determine if a site is eligible for funding. This information can be found on the zoning document for the parcel from the county. See an example on the next page. The county will need the Assessor’s Parcel Number (APN) in order to locate the required information. The allowable land uses must include rangeland or agricultural activities as included in the definition of *Farm and Ranch Property* on page two.

Zoning Document Example
San Joaquin County Regional Planning
Chapter 11, Mineral Resource (MR) Districts

Sections:

- 11.1 Purpose The purpose of the MR districts is to provide for orderly development and protection of lands containing resources and to provide for the protection of encroachment of unrelated and incompatible land uses tending to have adverse on the development or use of these so designated lands.
- 11.2 Applicability All lands contained within mineral resources district shall be subject to the regulations of this chapter as well as the provisions of the Chapters.
- 11.3 Uses permitted by Right The following are allowed by right, without special use permit:
- A. A single family detached dwelling;
 - B. Home occupations such as accountant, advisor, appraiser, architect;
 - C. Two unlighted signs in view of the public roadway, not exceeding twelve square feet of display area on any one sign, and not more than twenty-four square feet total display area, and not more than twelve feet above the ground, advertising **agricultural activities** on the premise;
 - D. **Raising and grazing of the livestock** and other domestic animals;
 - E. **Growing and harvesting** of trees, fruits vegetables, flowers, grains, and other crops;
 - F. Packing and processing of the **agricultural products** produced on the premise without changing nature of the products;
 - G. Sale on the premise of the products produced thereon; etc.
- 11.4 Uses Requiring Special Use Permit The following uses are allowed only after obtaining a special use permit thereof from the planning commission:
- A. Mining, quarrying, excavation, concentrating, exploring, drilling;
 - B. Construction and using rock crushing plants, aggregate washing, screening and drying facilities and equipment, and concrete batching plants;
 - C. Retail and wholesale distributing of materials produced on site;
 - D. Commercial slaughtering of animals; etc.
- 11.5 Development Standards The following area and building provisions shall apply unless a variance is obtained from the planning commission:

This is an abridged example of property that has been “otherwise designated for agricultural use.” Other designations such as silviculture, horticulture, aquiculture, floriculture, vermiculture, and viticulture are considered agriculture.

GRANT REVIEW AND AWARD PROCESS

GRANT APPLICATION REVIEW PROCESS

After the close of the application period, CalRecycle staff will review the applications for completeness and eligibility. Only complete applications can be considered for award.

In the event a cycle is oversubscribed staff would recommend a funding order based on:

- a) The greatest threat to public health and safety and/or public nuisance presented by the illegal dumping, and
- b) The greatest amount of waste present.

For the third cycle, if more requests for grant funds are received than there are funds available, complete applications submitted for the standard grant program will be considered first before applications for the Pilot. This will allow all complete applications to be funded before Pilot applications, which have not been completely researched and may end up as ineligible. CalRecycle staff may contact applicants to provide clarity or request additional information.

GRANT AWARD PROCESS

For qualifying applications, CalRecycle staff will develop funding recommendations for the consideration and approval of CalRecycle's Director, or their designee; this is tentatively scheduled for October 2017, January 2018 and April 2018. CalRecycle reserves the right to partially fund or fund individual phases of selected proposals, and CalRecycle may fund an amount less than requested.

CalRecycle reserves the right to not award any grant funds under one or more cycles.

GRANT AWARD CONDITIONS

When awarded, this grant will be subject to two conditions:

- 1) The recommended grantee must a) pay all outstanding debts due CalRecycle, or b) bring current outstanding payments owed to CalRecycle, within 60 days of the date of the award email
- 2) The recommended grantee's Signature Authority (or where delegation is authorized, his or her Designee) must sign and return the Grant Agreement to CalRecycle. The signed Grant Agreement must be received by CalRecycle within 60 days of the date of the award email.

Failure to comply with either condition will void the grant award.

GRANT PROGRAM ADMINISTRATION

GRANT AGREEMENT

The Grant Agreement binds the grantee to CalRecycle's requirements as outlined in the Grant Agreement documents. An original signature is required on the Grant Agreement. We cannot accept an electronic signatures. These documents shall guide the grantee's administration of the grant project.

Following CalRecycle's conditional approval of the grant awards, we will email grantees the information below.

- Award email.
- Grant Agreement Cover Sheet (CalRecycle 110).
- Exhibit A – Terms and Conditions: contain CalRecycle standard legal requirements for grants.
- Exhibit B – Procedures and Requirements: contain specific requirements for administering this grant, including but not limited to project, reporting, and audit requirements.
- Exhibit C – Grantee's approved application with revisions, if any, and any amendments.

REPORTING PROCESS

Grantees are required to report on the progress of their grant with each payment request. The Final Report is due on March 19, 2020. Detailed reporting information is included in the Procedures and Requirements (Exhibit B).

PAYMENT REQUEST PROCESS

Eligible costs are authorized for reimbursement upon the Grant Manager's approval of the Payment Request, and if required, the accompanying Progress/Final Report. Payment Requests must include itemized documentation of claimed expenses (e.g., itemized receipts and proof of payment of invoices). CalRecycle will retain 10 percent of each approved Payment Request amount until the Grant Manager approves the Final Report, the final Payment Request, and all required supporting documentation. Failure to submit these final documents by the deadline specified in the Procedures and Requirements (Exhibit B) or failure to receive the Grant Manager's approval of these documents by March 19, 2020, may result in the nonpayment of otherwise eligible costs. Detailed payment information is included in the Procedures and Requirements (Exhibit B).

PAYMENT METHOD: REIMBURSEMENT

Payment is made on a reimbursement basis for all grantees, except enrolled Resource Conservation Districts (RDCs). To obtain reimbursement, the Grantee pays the approved costs and then files a Grant Payment Request Form (CalRecycle 87) with the appropriate supporting documentation and a Progress/Final Report. Detailed payment information is included in Exhibit B – Procedures & Requirements of the Grant Agreement Package. Advance funds are not available under this grant.

PAYMENT METHOD: FOR ENROLLED RESOURCE CONSERVATION DISTRICTS

Resource Conservation Districts may apply for an alternate payment method, called the Invoiced Payment Method. Except for the Final Payment Request, the Invoiced Payment Method allows the enrolled RCD to submit Payment Requests for incurred, but unpaid eligible costs. Upon approval and processing of the Payment Request by

the Grant Manager, the RCD will receive grant funds for approved costs minus a ten percent (10%) retention (see **Ten Percent Retention** above). Upon receipt of grant funds, the enrolled RCD is required to pay in full all costs owing, including those covered by the ten percent retention, prior to submitting the next Payment Request.

The Final Payment Request cannot be processed as an Invoiced Payment; it is for reimbursement only. All costs claimed in the Final Payment Request must be paid for and the goods and services received prior to submitting the Final Payment Request. Detailed payment information is included in Exhibit B – Procedures & Requirements of the Grant Agreement Package.

Caution: the enrolled RCD is responsible for all costs incurred. In the event an incurred cost is not eligible for payment under this Grant, it is the RCD's responsibility to satisfy the obligation.

To apply for the Invoiced Payment Method, the Resource Conservation District must submit, a letter prior to site cleanup, signed by the authorized signature authority requesting the Invoiced Payment Method. If approved, the RCD is "enrolled."
